MyPatchPlaque has been creating custom made products for over 12 years. Our products are displayed in offices and homes throughout the world with pride. Be assured that we put the same quality requirements on our products as if we were the customer. If it does not satisfy our strict quality control, it does not ship to you.

Hand Made Plaques From Your Patch

MyPatchPlaque.com

MyPatchPlaques

What is a MyPatchPlaque you ask? It is simply a recreation of a patch into a plaque. The process duplicates a patch or other image into an enlarged version with every effort to maintain the original detail image. The enlarged version is mounted on a piece of wood and coated with a special polymer coating to protect the image for years of enjoyment.

Each MyPatchPlaque is hand made with attention to detail and quality.

Our customers rave about their MyPatchPlaque and have created a vast group of referral customers. Simply put, we would rather produce a quality product at a low price and have our customers spread the word than spend money on advertising which only raises the cost of the product.

MyPatchPlaque currently produces two sizes of MyPatchPlaques. The STANDARD size can be up to 8 inches wide and up to 10 inches tall. Our LARGE size can be up to 10.5 inches wide and 16.5 inches tall. The actual size of your finished MyPatchPlaque is determined by the shape of your patch. If you need to know approximately what size your MyPatchPlaque will be just email us a picture of your patch.

Other Products We Offer

The MyPatchPlaque is our primary product, but customers have asked for special uses of their MyPatchPlaque. We created the Award Plaque option which adds a coordinated section to the original shape providing space for text to recognize the recipient.

The MyPhotoPatchPlaque uses a photograph of a person, item, vehicle or scene as the source of the artwork for the plaque.

Mousepads have become a common place item in our age of computing. We offer custom designed mousepads with your patch, vehicle, slogan, scene or company logo.

Custom Plaques

Custom Plaques are also available with your designed image or we can create one or modify your image for your needs. Special recognition plaques, enlarged challenge coins, badges and company awards are just a few of the custom work we have done for other customers. If you would like custom graphics or artwork created for your plaque please contact us.

How To Order

Use the order form included with this brochure and send your patch to the address on the back. You can also purchase your MyPatchPlaque through our web site if your agencies patch is already on file, or if you are placing a repeat order. Gather orders from friends and coworkers to save on combined shipping.

Why do I Send a Patch?

Where a photograph may work for some products, we prefer to have the original patch in as new a condition as possible. We produce a high resolution scan of the patch to keep the detail as close to the same as the original patch. A photograph will not provide the same quality. Your patch will also provide the best color matching for your finished MyPatchPlaque. We return all patches with completed orders unless you advise us not to.
